LEARN MORE

The City of Sails.

As the most densely populated urban area in New Zealand, Auckland – known as Tāmaki Makaurau in Māori – is a diverse and multicultural city.

Here you'll find a welcoming culture and encounter open and friendly people.

There's something for everyone in this unique city, from fantastic restaurants, festivals, a vibrant nightlife, theatre, boutique shops and large malls, through to beaches, long walks, cycling and paddle boarding.

Why choose OmniHealth?

“ Our goal is to become New Zealand’s leading health care provider and ensure there are strong, effective and sustainable general practice systems for the future.

We want our practices to be *the* place to work and are constantly looking to gain efficiency from an effective use of technology, maximised relationships and minimised waste.

An attractive, supportive team environment maximises our people’s value and helps us achieve clinical excellence.

Mark Wills
Managing Director

A world-class recipe for better living.

WORK-LIFE BALANCE

Survey after survey proves New Zealand's enviable work-life balance.

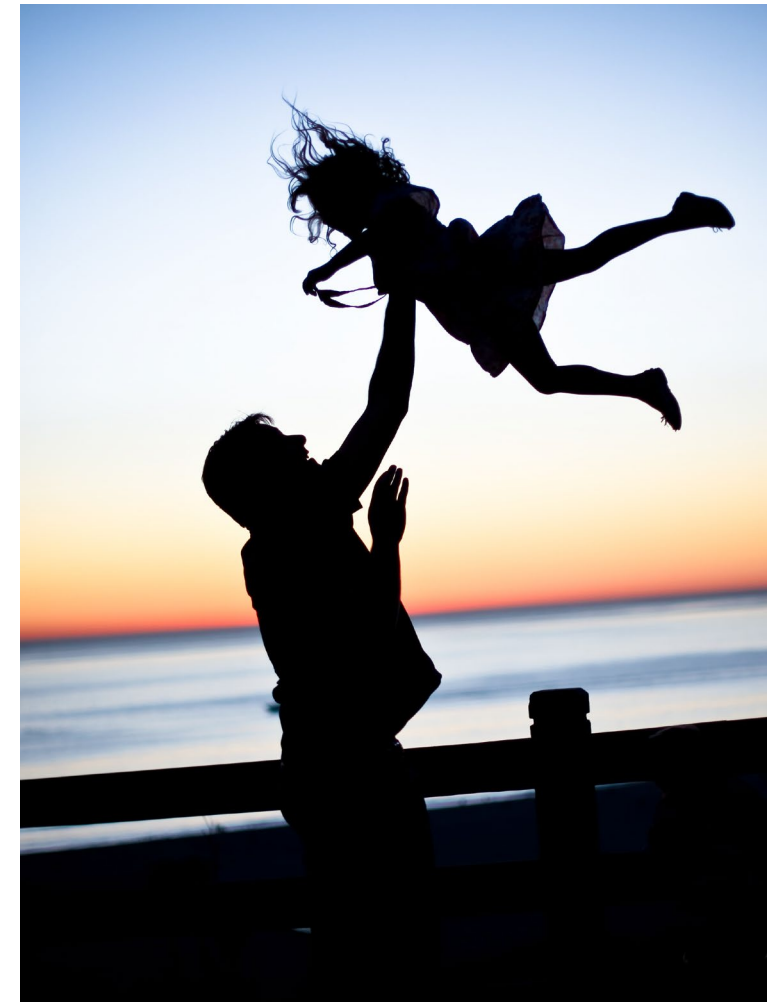

Our easy-going ways, uncrowded communities, relatively low crime rates and compact workplaces all mean life's generally less stressed here.

QUALIFICATIONS

The Medical Council of New Zealand recognizes all the qualifications you have gained in the UK.

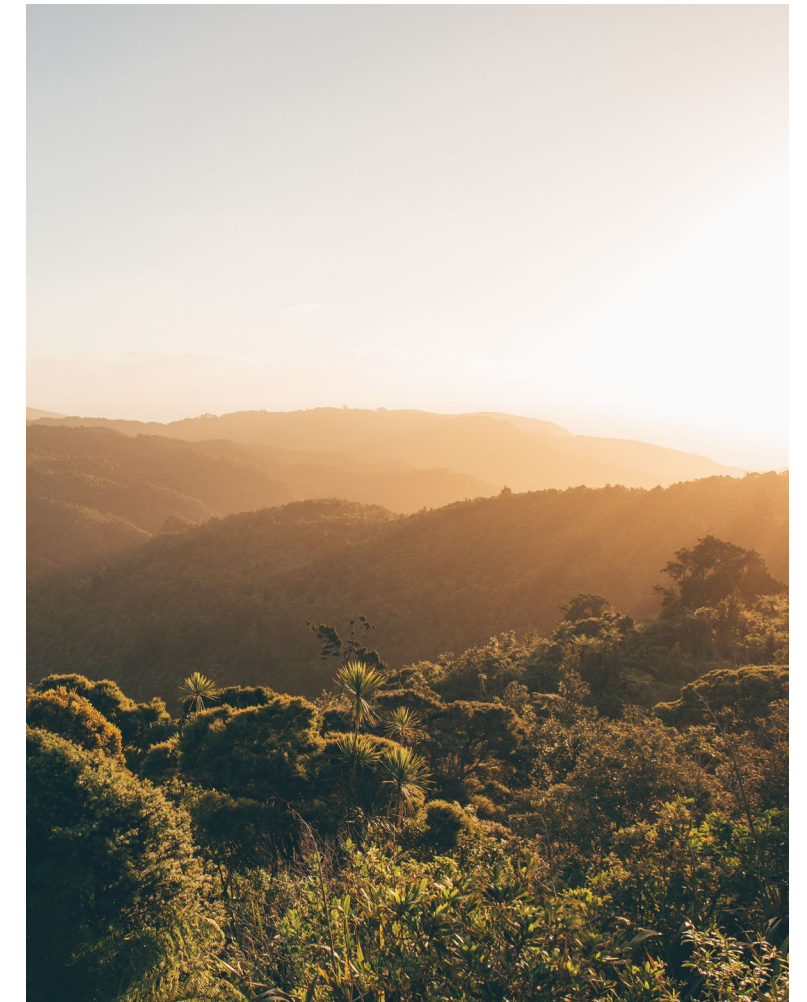

More than 40% of NZ's doctors trained overseas and we're thankful for all their hard work.

FAMILY FRIENDLY

Moving to a new country gets more complicated if you have a family to consider.

But rest assured, New Zealand is a great place to bring up children. They're able to enjoy many things here other countries just can't offer.

100% PURE NZ

New Zealand is the same size as the UK, with a fraction of the people.

Less pressure on natural resources means we don't have the pollution, congestion and health issues that you often find elsewhere. The weather's also better down here.

Devonport Health

Devonport Health is a purpose-built medical centre currently being constructed in the heart of Devonport. When complete, it will provide residents with a truly modern approach to healthcare.

Two of our practices — Anne Street Medical and Devonport Medical Centre — will merge when the building is ready.

Senior Care Health Centre

Senior Care Health Centre operates in partnership with The Selwyn Foundation — an independent charitable trust providing services to older people and their families.

Believing that to “care for older people you have to care about them,” the organisation provides a wide variety of health services to NZ’s elderly. This is in both an independent and residential care setting.

Shortland Health

Shortland Health is a modern medical practice located in the heart of Auckland's CBD.

Founded on the premise of modern, convenient and continuous care, the practice offers Auckland CBD's working population a wide variety of health services.

The space has also won numerous awards for its wellness in design.

Donovan Street Medical Centre

Donovan Street Medical Centre is a community medical practice located in Blockhouse Bay, Auckland.

The practice offers a full range of general practice services and prides itself on continuity of care, preventive medicine and a proactive approach to all health issues.

To meet the unique needs of patients, there is also a strong focus on diabetes, weight control and asthma.

Tuakau Health Centre

Tuakau Health Centre is a community medical practice located in the picturesque Tuakau, just 60kms away from Auckland's CBD.

Servicing the local community for over 25 years, Tuakau Health Centre offers the best of both worlds for GPs — a great family and working environment close to NZ's biggest city.

The practice is now housed in a modern, purpose-built surgery and provides a full range of general practice services, including specialist clinics.

Tuakau Health Centre is also a teaching practice.

Conifer Gardens Medical Centre

Conifer Gardens Medical Centre is a community medical practice located in Takanini, Auckland.

Servicing a mixed ethnic and socio-economic population in South Auckland, the surgery provides a wide range of general practice services. This includes tailored services for Māori and Pacific peoples.

Conifer Gardens Medical Centre also provides health services to two local rest homes.

Beachhaven Medical

Beachhaven Medical is a community medical practice located in Beachhaven, Auckland.

The practice offers a full range of general practice services and prides itself on continuity of care, preventive medicine and a proactive approach to all health issues.
